

MILTON KEYNES CONSERVATIVES MAKING MILTON KEYNES GREAT MAY 2008

Make Milton Keynes a magnet again for new jobs, new ideas, new firms and homes you can afford. We want you to have more chances of better paid work.

Infrastucture before Expansion. MK will be a mess unless we stick to this principle. We will give you a well-planned, prepared and resourced City.

Leadership, strong and clear. Working with Partners and Government for a better future. We have the strength and courage to make an impact.

Tax is the bane of your lives. We have proved we can offer a better deal (3.5%) than the LibDems (3.9%) and Labour (with no ideas at all). We pledge to stop the waste and leave money in your pockets for you to spend. It is Conservatives who dug into the school build fiasco and shamed the LibDem Council.

Older people to be given a greater say on how their services will be delivered.

Neighbourhood safety initiatives will be our focus. We voted for more money here, but it was blocked by LibDems and Labour.

Keeping our famous grid road system because it works and you want it. Roundabouts – not traffic lights.

Education needs rescuing - to get up to and then exceed the national averages. Our children deserve better. It is no good wanting stylish buildings if the educational product is sub-standard.

Young people to be given an extended vision of a better future via sport, music, social action and work-based training.

Neighbourhood and city parking issues to be tackled, linked to new public transport initiatives.

Environment to be enhanced by a new approach to Green Maintenance. Focus on better quality work practices. Green practices to be encouraged across all City activity.

Services delivery for decent homes, weekly bin collections, clean neighbourhoods. Working in partnership with neighbouring authorities to treat waste responsibly.
